Category:	Customer::TGR::Member	Votes:	0
State:	public (all)	Result:	0.00 %
Language:	en	Last update:	11:47:16 - 01/08/2020

Symptom (public)

Member wishes to request a static WAN or LAN IP from TGR, but doesn't know his current IP or MAC Address

Problem (public)

Solution (public)

Red box in picture provides the MAC address of the interface that is connected. If there are multiple MAC addresses, provide all and we will search for it on network.
